Guidance Document

Title: Updated DEA Registration Certificate after Removal of X-Waiver

Summary: This guidance document provides information regarding issuance of updated Drug Enforcement Administration (DEA) registration certificates to reflect Congress's elimination of the X-waiver (DATA-Waiver) in the Consolidated Appropriations Act (CAA) of 2023. This guidance will be sent via email to all DEA-registered pharmacies and practitioners and will be posted on the [DEA guidance portal](#).

Activity: Updated DEA Registration Certificate after Removal of X-Waiver

To Whom It Applies: All DEA-Registered Practitioners

Question: In light of the elimination of the DATA-Waiver (X-waiver) requirement, do I need to take any action to get an updated DEA registration certificate?

Answer: No action is needed on the part of registrants, as a result of the statutory repeal of 21 U.S.C. 823(h)(2). On December 29, 2022, with the signing of the CAA¹, Congress eliminated the DATA-Waiver requirement. Specifically, Pub. L. No. 117-328, div. FF, tit. I(B), ch. 6, § 1262(a)(1), 136 Stat. 4459, 5681 (2022) removed the federal requirement for practitioners to apply for a special waiver prior to prescribing buprenorphine for the treatment of Opioid Use Disorder (OUD). It also removed the requirement for the assignment of an identification number (i.e., X-waiver number) associated with being a DATA-waived provider, for inclusion with the registration issued to the practitioner. 21 U.S.C. 823(h)(2)(D)(ii).

If you are currently registered with DEA as a DATA-Waived (X-waiver) practitioner, you will be receiving an updated DEA registration certificate to reflect the elimination of your X-waiver unique identification number. Your existing (standard) DEA registration number will remain the same. No additional action is necessary on your part to remove the DATA-Waiver designation from your DEA registration.

As DEA informed registrants [by letter on January 12, 2023](#), “a DATA-Waiver registration is no longer required to treat patients with buprenorphine for opioid use disorder. Going forward, all prescriptions for buprenorphine only require a standard DEA registration number. The previously used DATA-Waiver registration numbers are no longer needed for any prescription.”
